

Dear Tyler Dawson,

At XAPT Business Solutions, we know the importance of tailoring technology to the needs of our clients. One size does not fit all; our experience in helping organizations leverage technology to increase profitability demands a unique understanding of our client's goals.

After careful investigation of lead generation firms to help us with our Microsoft Dynamics line of products, we chose Lead Generators International because of their expertise in working with high-tech companies like ours. Even though LGI was located more than 4,000 kilometres away from our head office, we were confident they could do the job well.

In our business, we promote "Best Practices" by leveraging technology to streamline business processes in order to increase profitability. Our customers challenge us to deliver the best solutions, best technologies and best services. We hold the companies that work for us to this same standard, and LGI has met that challenge.

LGI delivered to our expectations and we look forward to working with them again.

Best regards,
