

To whom it may concern;

Accutrac Capital provides trucking companies with a continuous source of operating capital through the purchase of their receivables. This practice is referred to as factoring.

When we contacted Lead Generators International (LGI) we needed to achieve results immediately (within one week). We needed qualified leads that were interested in using our service. We could not afford to waste valuable time following up on unqualified leads as is so common delivered among many low cost, low quality companies in the call center industry.

We were reluctant to engage a company that was located 2,000 miles from our office and required an \$9,000 upfront retainer payment, but we wanted to hire the very best Lead Generation company we could find. Based on the results LGI produced for us and their past clients we have found that top tier company in LGI.

LGI took the time to really understand our business, they were in constant communication with us throughout the process, and they never stopped refining their approach to achieve the very best results they could. They clearly had our best interests in mind.

We look forward to working with LGI again on another campaign.

Warm regards,

Charles Sheppard  
Co-Founder and President
