

To whom it may concern:

Cronus Technologies Inc., core competencies include Internet-based applications, enterprise portals, database development/administration services and enterprise hosting services. Our primary markets include human resource and health care administration applications. Cronus has successfully completed projects for a wide-range of clients spanning a multitude of sectors including: human resources, health, education, public sector and corporate - including some of the Fortune 500! Including such clients as PepsiCo, Inc., JC Penney Company, Inc., Whirlpool Corporation, and Starbucks Corporation.

When we turned to Lead Generators International (LGI) we were looking for a very professional telemarketing company, that could protect our brand first and foremost, representing us very professionally in the marketplace, and at the same time generate highly qualified leads for our web based employee benefits communication software.

LGI took the time to really understand our business and our technology. They are an extremely professional and results orientated group to work with. LGI delivered highly qualified leads and made an excellent impression of our company with the prospects they spoke to.

We are currently in negotiations with LGI for another, more comprehensive, lead generation campaign. Should you wish to discuss the experience we had with LGI please feel free to contact me at anytime.

Sincerely,

A handwritten signature in black ink that reads "Paul Cluett". The signature is written in a cursive, flowing style.
