

M PRIVATE RESIDENCES

To Whom It May Concern:

M Private Residences Inc. provides equity, shared ownership of a portfolio of luxury vacation homes around the world. With destination properties in British Columbia, Hawaii, Phoenix, Las Vegas, Palm Springs, New York, London, France, Barbados, and Mexico, our sales process requires a very focused and professional type of sales service.

Recently, we held a series of three webseminars to promote our company to potential clients. An Internet search led us to Lead Generators International, and we are glad it did. We were intrigued by LGI's positioning as a business-to-business lead generator, and the fact it is a Canadian company like our own.

After contacting two of LGI's previous clients, we knew we had found the right company for the job. We worked extensively with them on developing and fine-tuning our market targets, marketing campaign and call scripts - improving our results for each successive engagement.

The LGI team was very professional on the phone. They took our list of leads and approached each one respectfully and competently.

We would happily work with LGI again.

Best regards,

Pat Dennis
Director, Sales
M Private Residences Inc.
